

Strata Information Group
Upper Midwest Banner Users' Group
Spring Training

April 24 - 26, 2018, St. Catherine University
Page Builder & Theme Editor tools

Goals:

- Learn the basics of building Banner Self Service pages
 - Learn how to create custom themes for Banner Self Service pages
-

Day 1 – April 24

- Over view of the Extensibility Tools and where each fits
- Overview of Page Builder
 - Virtual Domains
 - Page Composer
 - CSS Manager
- GTVEMAL - Exercise 1
- Pet Tracker (Requires that create_pettables.sql be run for each participant)
 - Exercise 2 – GZVPETS (on your own, no documentation)
 - Exercise 3 – Pet tracker (User entry)
 - Exercise 4 – Pet Tracker Query (Administrative Query)

Day 2 – April 25

- Multi block coordination - Exercise 5 –(Encourage participants to do the extra credit)
- Faculty Comments Application (Requires PB_MultiFormPage.sql be run once and that each participant be assigned as the primary instructor to at least two classes in Banner [SIAINST, SSASECT].)
 - Exercise 6 – Create a multiform Application
 - Exercise 7 – Faculty Comments Single Page using blocks instead of forms (on your own, no documentation)

Day 3 – April 26

- Faculty Comments Application – Exercise 8 – Clean up Activities
- Build Faculty Course Survey Page - Exercise 9 - (Run PB_CourseSurveys.sql to prep exercise. Need to adjust inserts depending on terms used in Banner.)
- Theme Editor
 - Import SIG virtual box
 - Creating themes for Banner 9 Self Service applications
 - SASSy CSS and their use in the Theme Editor
 - Using the themes with Admin Pages
